

10 Space Cambridge Cycle Shelter Information Sheet

10 Space Cambridge Cycle Shelter

Our Cambridge Cycle Shelter delivers quality bike storage and tremendous value for money. A budget-friendly shelter, it can be indefinitely extended to meet any storage requirements.

The Cambridge Cycle Shelter is able to fully enclose the bikes with gates and side panels, and has a wide range of optional extras so it can be adapted to any environment: making it an extremely popular choice for bike storage across a wide range of applications.

Constructed from hot-dipped galvanised box tubing and a plastisol corrugated roof, it's a great solution for protecting bikes from the elements whilst also offering a secure place for cyclists to lock them up.

Contact us today to order or for any enquiries.
