COMPANY INFORMATION

ABOUT US

Established in 1983, our growth has evolved from a strong background in craftsmanship and customer service. Today the company is privately owned by a team of directors who believe in combining traditional skills, modern best practice methods and teamwork.

OUR CAPABILITY

Design, manufacture and installation are all “in-house” functions. This gives us the breadth of capability and flexibility to suit each individual customer’s order “fit for purpose” and aesthetic design requirements. We only use the highest quality materials and all units are fully constructed before delivery and installation. We do not supply any flat-pack modules. Our methods and exemplary high quality standards ensure our furniture is built to withstand a demanding working environment with a long lifetime.

IT'S PEOPLE THAT MAKE THE DIFFERENCE

However, we know that superb product quality is simply not enough. In business, just as in any other aspect of life, it's people that make the difference. In an industry where the levels of communication and reliability are not always consistent, we focus on ensuring you have peace of mind from design through to final installation.

Every furniture solution is designed, built and fitted exclusively for you because we want to ensure that you return to us time and time again.

Members of

EXCLUSIVE  COUNTERS

Exclusive Counters, Bars and Receptions create a fantastic first impression, designed and manufactured to be stylish, professional and reflect corporate identity.

Tailored to suit your individual purpose, either from client drawings or our own design facilities providing drawings and material ideas.

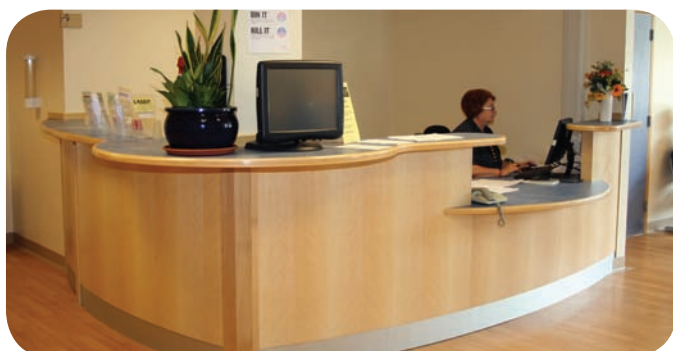

Custom made counters for numerous environments including:

- Bars
- Hotels
- Schools
- Libraries
- Hospitals
- Leisure Centres
- Doctors Surgeries

Our counters are manufactured from a range of materials to provide the perfect combination of looks, practicality, versatility, durability and value for money.

Complete in-house manufacturing incorporating the latest CAD technology means counters can be designed to incorporate graphics, company logos, IT and AV equipment with complex cable management requirements.

We also offer full interior fit outs including decoration, and flooring services for a total turnkey solution. Security screens can be incorporated within our counters for situations where privacy, welfare and property security is a concern.

BESPOKE ICT FURNITURE

EXCLUSIVE  ICT FURNITURE

Butts Pond Industrial Estate Sturminster Newton Dorset DT10 1AZ
T: 01258 472001 F: 01258 473884 E: sales@exclusive-furniture.co.uk
www.exclusive-furniture.co.uk

Every customer has a different ICT furniture requirement.

We appreciate how important it is to provide a bespoke design and build solution, specifically produced to meet your own unique requirements.

As our bespoke and fitted furniture is designed, manufactured and individually hand finished in our factory in Sturminster Newton, we are able to provide an aesthetic and practical solution, whilst making optimum use of the available space.

Designed to ensure durability, functionality & ease of maintenance

- Integral cable management
- Suits all types of hardware configurations
- Work tops are finished with solid wood edging & durable laminate surfaces
- Cantilevered leg frames provide strength & space to perimeter worktops
- Wide choice of wood veneer or laminate finishes
- Full length piano hinges
- Drawer and door edges are finished in solid wood or 3mm PVC
- High quality fittings

From a single ICT study area to a purpose built Science and Technology block, we liaise closely with both end user and architect at all stages to ensure maximum utilization of the space available to meet the end user's requirements.

With competitive price levels, our designs offer the most flexible, efficient and cost-effective solutions to your furnishing needs. We guarantee that all of our product ranges are manufactured to the highest standards using quality materials.

EXCLUSIVE LIBRARY FURNITURE

Every Exclusive Library is made to measure – and built to last.

Built to the highest standards with top quality materials, Exclusive's libraries are increasingly specified by discerning customers throughout the UK, from local authorities and councils to the independent schools sector.

As our bespoke and fitted furniture is designed, manufactured and individually hand finished in our factory in Sturminster Newton we are able to provide an aesthetic and practical solution to every conceivable library requirement.

We can supply both bespoke and standard furniture in various configurations and materials to suit all functional and budgetary requirements.

From a simple refurbishment to complete turn-key solution:

- Wooden & metal shelving systems
- Free standing & wall fitted shelving
- ICT areas
- Bulk & archive shelving
- Full range of specialist library fittings
- Reception & administration areas
- General storage
- Study & seating areas

We have carried out a large number of complete refurbishments as well as designing libraries from scratch. From complete 'Blue Ribband' projects to individually designed shelving units, Exclusive provides purpose-built solutions to every conceivable library requirement.

With competitive price levels, our designs offer the most flexible, efficient and cost-effective solutions to your furnishing needs. We guarantee that all of our product ranges are manufactured to the highest standards using quality materials.

Suppliers of

EXCLUSIVE  LABORATORY FURNITURE

Our Exclusive Laboratory furniture is designed and manufactured to be practical, versatile & durable.

All of our laboratories share our heavy-duty construction techniques and “traditional” standards of finish. We offer a choice of specialised worktop materials such as Texwood Iroko, Trespa and Corian surfaces. We produce a wide range of double and single base units; drawer packs; tray units; fume cupboards; plan chests and tall storage units. All can be finished in a choice of colours. We also supply units finished in real beech, ash, or oak veneers, sealed with long-lasting lacquers. All units incorporate the highest quality gas, electrical trunking, and plumbing fittings.

With competitive price levels, our designs offer the most flexible, efficient and cost-effective solutions to your furnishing needs. We guarantee that all of our product ranges are manufactured to the highest standards using quality materials.

Education laboratories

Curriculum, teaching style, and space restrictions dominate the choice of design for a science lab, food science, wood-work, textiles or art room. Planning a refurbishment of an existing room, or new laboratory, requires careful thought and attention with regards to teaching style, access, servicing and flexibility. We can provide a no obligation room design service to transform your ideal concept into a safe, practical teaching environment.

Research & Medical laboratories

Despite our high quality levels, we are able to offer highly competitive price levels for both standard and bespoke furniture and fitments. All share our heavy-duty construction techniques and “traditional” standards of finish. We are able to provide a real choice in space planning, work surface specifications and colour combinations. We can tailor a complete design solution to meet your needs.

Tested by **CLEAPSS** for use in schools

The specialist in education and medical storage

Specialist shelving and storage solutions

The single source for the complete clean air solution

Steel Library Shelving Systems

Office furniture to suit all style requirements and budgets

Specialist manufacturer of public area furniture

Extensive range of healthcare equipment

COMPREHENSIVE RANGE

Our bespoke and fitted furniture is designed, manufactured and individually hand finished in our factory which is equipped with latest CAD technology and production equipment. Our highly skilled team of craftsmen assemble and fit our furniture to a finished look of the highest standard using the best materials available.

Although the same high standard of styling and space utilisation is maintained throughout our entire range, our flexible design and construction alternatives allow us to offer products to suit all budgets.

As each range undergoes the same manufacturing and installation process, consistent high levels of material quality and workmanship can be assured. In addition to the supply and installation of our products, we can also offer project management services to provide a fully turn-key solution for refurbishment and/or refitting projects.

Since 1983, we have designed, manufactured and installed durable, quality furniture for a variety of markets including:

EDUCATION

In this highly demanding market we are able to make maximum use of the space available to provide robust, durable furniture to suit most environments. Our designs provide both functionality and flexibility to suit the demands of the ever changing teaching and technology requirements.

Products for the education market:

- ICT suites • Libraries • Science & Technology laboratories
- Reception areas & offices • Food Technology areas
- Student accommodation • Art & Craft rooms • Study areas
- Design & Textile rooms • General storage & shelving
- Special Needs furniture

HEALTHCARE

The furniture requirement of the healthcare market varies greatly, from that needing to comply with the relevant HTM standard, to that of commercial grade furniture. We believe we offer a unique service to those involved in the healthcare market as we can provide a complete solution to all of the end users furniture and storage requirements. We can help our customers avoid the heavy administration burden and high costs of having to source from many suppliers.

Products for the healthcare market:

- General storage units compliant to HTM63 • Materials Management Modular Storage units compliant to HTM71 • General fitted & bespoke storage units
- Standard & bespoke office furniture • Reception areas & offices
- Consultation rooms • Healthcare specific storage racking & trolleys
- General fixtures & fittings

COMMERCIAL

In a market where quality at the right price is often the main requirement, the fact that our furniture is designed, manufactured and individually hand finished in our own factory allows us to control costs and offer excellent value for money. Our choice of materials allows us to offer products to suit all budgetary requirements whilst maintaining the same levels of functionality and space utilisation.

COMMERCIAL PRODUCTS:

- General and prestige offices • Reception areas • Libraries • Commercial laboratories • Hotel accommodation • Display units • Special projects
- General storage & shelving
