BRITAIN'S FINEST TIMBER WINDOWS & DOORS

COMMERCIAL BROCHURE

# BRITAIN'S FINEST TIMBER WINDOWS & DOORS

Since 1954 Mumford & Wood has established a hard-won reputation for timber windows and doors that combine cutting-edge technology with traditional aesthetics. From landmark refurbishments to residential developments, Mumford & Wood's design team have been instrumental in helping architects, developers and aspirational homeowners to achieve the highest performance and quality for their properties.

Our Conservation™ timber windows and timber doors appeal to both the aesthetic and functional requirements of architects, planning authorities, preservation societies and end-users alike. These products, including our timber sash windows, use the best of traditional features with a choice of deep moulded profiles, advanced timber section design and timber material.

With a variety of glazing options, including double, slim and single glazed, all of our Conservation™ products are hand crafted, with a series of sanding processes to achieve a traditional look. The resulting timber windows and doors offer the impressive performance of a high-end modern window or door, but with the unique traditional aesthetic that Mumford & Wood is renowned for.

# DEEP ROOTED IN QUALITY

Whether you are creating a landmark project or a more modest commercial building, the team at Mumford & Wood stand ready to deliver the expertise you need.

From concept to completion our dedicated and professional team will walk side by side with you throughout the project, offering support and guidance at every step.

With expert advice at the outset, to surveying, provision of drawings and project management, we become an integral part of your working panel.

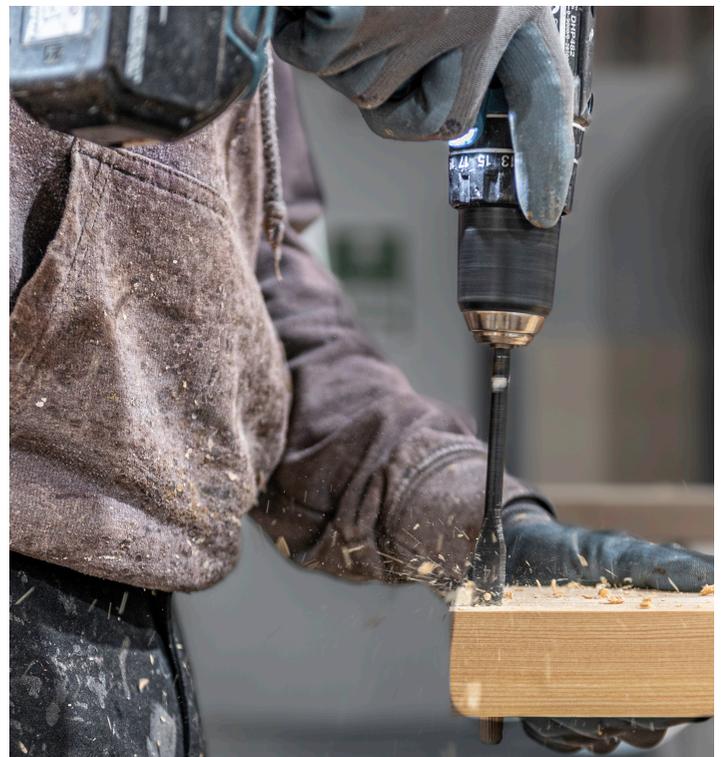

With an outstanding choice of continually developed product ranges offering industry leading technical performance, we also create and deliver bespoke solutions and designs on a regular basis.

A good job done by our team provides peace of mind, with reduced workload and complexity for your team.

The many strong relationships Mumford & Wood enjoys with some of the UK's leading architectural practices, construction firms and developers stand as testament to our approach.

Once your products are in the experienced hands of our craftspeople at our state-of-the-art facilities in Tiptree, you can be sure that every detail has been considered.

Beautifully engineered and meticulously prepared for transportation, your products will arrive safely on site. Once handed over, our aftercare team are then on hand to offer any support required.

# TURNBERRY RESORT AYRSHIRE

Selected as the supply partner to replace over 1000 windows and doors as part of the major £200m restoration of Turnberry Resort in Ayrshire, featuring 103 bedrooms, public spaces and the construction of a new 500-person grand ballroom within this world-renowned golfing and leisure destination.

# CHRISTCHURCH HARBOUR HOTEL & SPA DORSET

Extensive renovation to restore this elegant, Grade II listed, seaside hotel idyllically situated on the banks of the Mudeford estuary in Dorset.

The owners removed all of the uPVC windows and replaced them with Mumford & Wood's Conservation™ timber windows and doors, more fitting to the architectural period.

## 55 NEW CAVENDISH STREET LONDON

Situated in the bustling and historic Marylebone, and is part of the Howard de Walden estate that owns most of the buildings in the immediate 92-acre area. Built in 1888 by architect W. Henry White, 55 New Cavendish Street has undergone refurbishment making it suitable for office or medical use with faithfully detailed sash windows matching the originals.

## KOHO COFFEE BUCKINGHAMSHIRE

An independent coffee shop in the village of Little Chalfont, KoHo Coffee's frontage was completely redesigned, giving it a traditional, coordinated and sophisticated façade by Mumford & Wood, making an eye-catching contribution to the streetscape.

# RATHBONE PLACE LONDON

Extensive refurbishment of a central London space, creating modern bespoke commercial suites, whilst retaining the traditional and protected façade.

## ARTIST RESIDENCE BOUTIQUE HOTEL LONDON

Beautiful timber Conservation™ box sash windows by Mumford & Wood were specified in the complete internal and external refurbishment of a Regency period property in the fashionable conservation area of Pimlico Village, City of Westminster, to an eclectic, 10-bedroom boutique hotel.

hummus bros

## WARDOUR STREET LONDON

Seventy Six Wardour contains three commercial floors of triple aspect feature windows by Mumford & Wood, who were specified by lead contractor, Morgan Sindall and EPR Architects.

Special conditions had to be satisfied with the London Borough, City of Westminster with 83 windows designed and manufactured to a very detailed specification, while retaining beautiful detail and aesthetic value.

# CHELTENHAM LADIES COLLEGE CHELTENHAM

Specified by architects, Evans Jones LLP of Cheltenham for the replacement of hundreds of period style windows and doors within the many boarding houses of Cheltenham Ladies' College; an independent boarding school at the forefront of girls' education for 11-18 year olds, with a worldwide reputation for academic excellence, founded in 1853.

## BOROUGH HIGH STREET LONDON

First occupied by Gainsford & Company, a silk mercer, draper and house furnisher from 1819, and later from 1895 to 1910 becoming home to Albion House Clothing Company, the beautiful structure sitting between London Bridge and Borough stations now houses 'St Christopher's at The Village', an award-winning accommodation, and features Mumford & Wood sash windows throughout.

# REGENT ARCADE SHOPPING CENTRE CHELTENHAM

Cheltenham is famous for its regency architecture, and this three-storey shopping centre is in the heart of one of the Cotswold's premier districts. Chapman Taylor LLP of London specialise in retail and leisure urban regeneration, and specified Mumford & Wood's sash windows for installation at first and second floors of the Arcade.

# NEW CAVENDISH STREET LONDON

Re-creation of authentically styled sash windows and doors, including decorative glazing for this elegant structure in Marylebone.

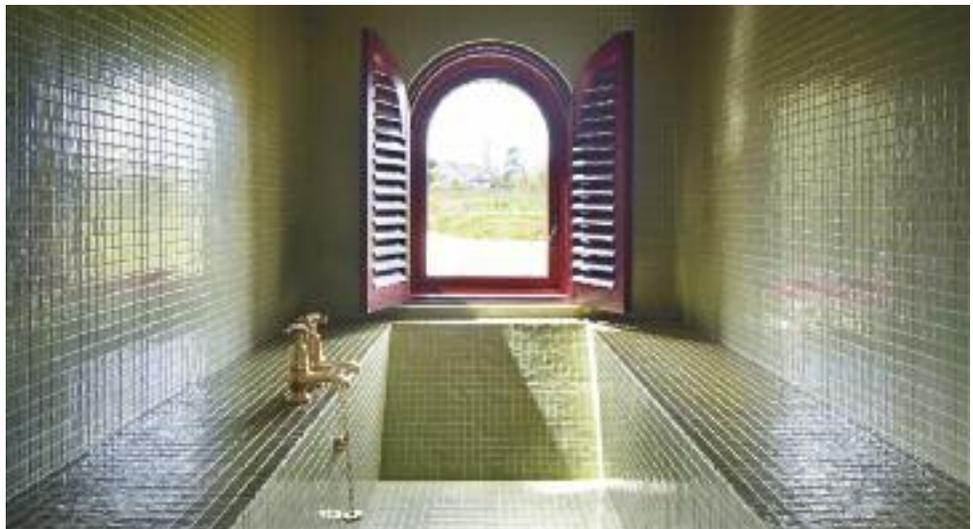

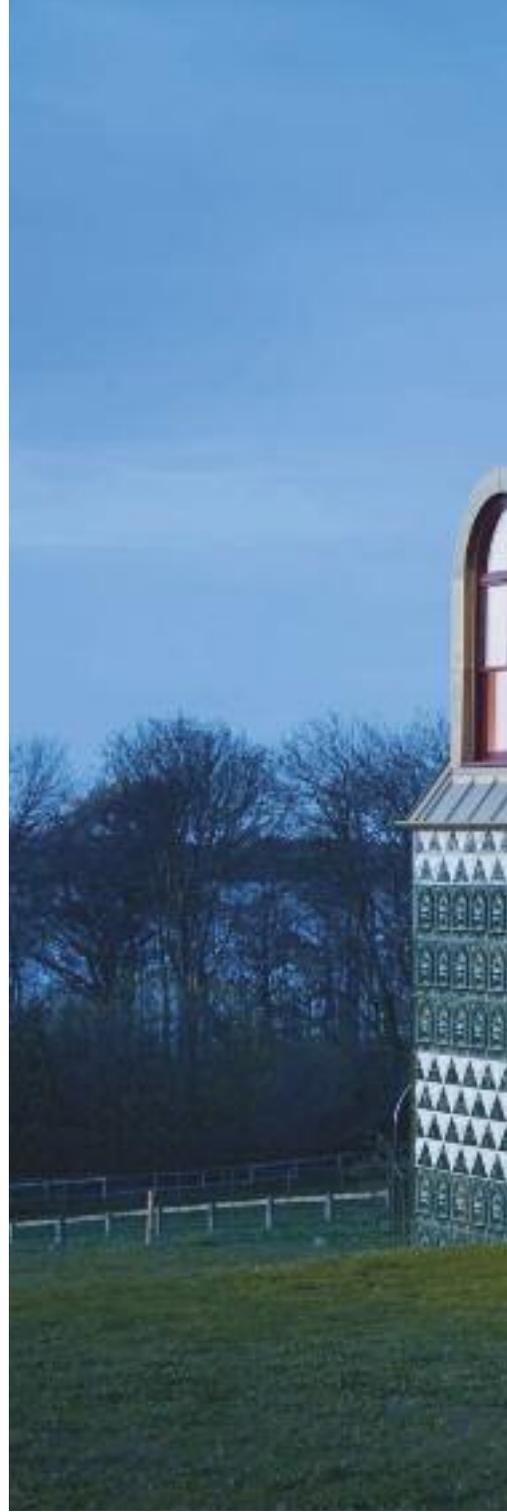

## ARCHITECT'S PRACTICE EAST LONDON

Sympathetic refurbishment restoring the fabric of a historic building in a London conservation area; as specified by renowned architect Chris Dyson for his own practice offices.

## 'A HOUSE FOR ESSEX' ESSEX

A collaboration between FAT Architecture and contemporary artist, Grayson Perry, this daring ceramic-clad, gingerbread-like house is one of a series of rentable holiday homes. Rose Builders of Manningtree, Essex were the lead contractor and a regular specifier of Mumford & Wood products.

# FACTORY TOUR

## BUILT TO PERFECTION

Mumford & Wood's state-of-the-art manufacturing facility in Tiptree, Essex, extends to over 3,000m<sup>2</sup> and has recently undergone a £1.5m investment in new plant and equipment.

For those who are interested in seeing how the Mumford & Wood facility works, the Tiptree Factory Tour provides a fascinating insight. This one-hour long tour will take visitors through the processes of timber selection and preparation, moulding of profiles, frame and sash assembly to painting, glazing, hand finishing and wrapping.

Our Factory Tour is a RIBA-assessed CPD.
