

ROYAL NOSTALGIA REVOLVING DOOR

Classical Antique Style Bespoke design

Royal Nostalgia revolving doors offer the possibility to recreate the appearance of vintage entrances while using the very best modern materials and durable construction methods.

All Nostalgia metal revolving doors feature an internal stainless steel framework for maximum strength and durability. This framework can be overclad with a wide variety of materials such as brass, bronze or coloured stainless steel or aluminum to produce an outstanding finish. Timber doors feature a combination of stainless-steel framing and bespoke joinery. The Royal Nostalgia is available in automatic only and available in 2, 3 or 4 door leaf configurations.

The Royal Nostalgia is available with diameters starting from 3000mm.

TECHNICAL DATA.

Product Reference:	ROYAL NOSTALGIA REVOLVING DOOR
Material:	Glass Overclad stainless steel frame for added durability and strength
Number of wings:	Two Wing Three Wing Four Wing
Operation:	Fully Automatic Security mode with controlled access
Diameter:	3000mm+. Available in 1mm increments
Internal Height:	3000mm – 9000mm+. Available in 1mm increments
Clear Opening:	2060mm+* *Dependent on door configuration and diameter
Locking:	Automatic Manual

Glazing:	Singled Glazed/Double Glazed Clear Low Iron Coloured Fritted Special Glazing Options or Solid panels
Canopy:	50mm +. Available in 1mm increments Please contact Bauporte for minimum heights if lighting or hot air units are required.
Surface Finishes:	Copper, Bronze, Timber, Stainless Steel, Polyester Powder Coated Special Finishes on request
Accessories:	Night Security Screens or Night Security Wall Matting, Water Drainage Reservoir Heaters integrated into the mat well RC2, RC3 Rating EN 1627-30
Push Bars:	Vertical or Horizontal Handles are available
Safety:	Designed, Manufactured and installed to EN 16005
Power Supply:	230 V/50 Hz
Drive Unit:	Canopy installation, minimum canopy height 350mm Underfloor Drive Unit Pit size 1200 x 400x400mm (L x W x D)
Warranties:	Two Years or Lifetime with service contract* *Please contact Bauporte for further information
Construction:	Fixed curved drum walls will be constructed from welded through stainless steel profiles, which are covered with 2mm aluminum sheeting or chosen special finish. Glazed curved drum walls formed from clear curved 12mm glass in one piece over the full height of the door and divided by the midstyle. No bottom glazing profiles, the glazing fits directly into the floor construction. The rotating part will have door leaves constructed out of a welded through SS structure, which will be covered with aluminum sheets or special chosen finish. In the center, there is a central post of Stainless steel connecting the top-part and bottom-part. Diameter of the post is 60mm. Glazing is clear flat 12mm toughened glass. The profiles around each door panel are 27mm high. Door leaves are provided with single brushes on all edges.
